

CombiPlum EASY

Hand hygiene solution

CombiPlum EASY is a simple and practical dispenser well suited for areas with high hygiene standards such as hospitals, dentists, nursing homes and the food industry a.o. The dispenser is easy to clean and operate. The products are available in airtight bags to limit bacterial growth during use, also giving a minimal amount of waste.

The dispenser can be used with our mild and skin-friendly products which guarantee gentle and effective handwashing and hand disinfection. Good and proper hand hygiene prevents infections and provides safety with both patients and personnel.

A CombiPlum EASY hand hygiene solution is:

- Economical
- Reliable
- Hygienic
- Mild products
- Effective hand hygiene
