How to get started

Welcome
Create account by pushing the blue button "Create new company profile".

If you already have an account you simply "Login".

Create your profile
Please read our terms and conditions. To accept please press "Accept and continue".

Insert your company information and enable "Notifications" to receive a monthly overview of products.

Add unlimited locations by pushing the orange button "Add another location".
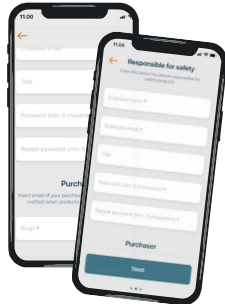

Responsible for safety
Fill in your name, e-mail and title of the person responsible for safety.
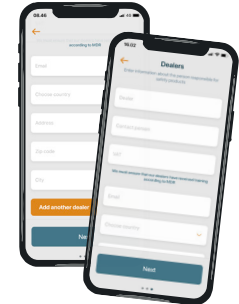

Your password needs to be at least 6 characters.

Add the email of your purchasing department to receive reorder mails.

Add dealer info
Fill in information about your dealer to send reorder mails directly.

Add unlimited dealers by pushing the orange button "Add another dealer".

Product overview
This is the main page of the app where you can add products and get a full overview.

Click [icon] to review your profile and add more locations.
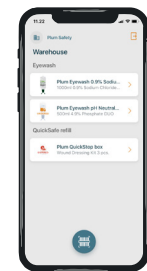

Click [icon] to log out.

Click [icon] to scan new products

Product overview
All your scanned products will appear on the home screen.
When the product has expired or is reordered a small icon will appear by the product.

Scanning feature
Scan the barcode and the product will automatically be added.

Choose location, purchaser and expiration date.

Scanning feature
If you scan a product that the app does not recognize, you can add the product manually.
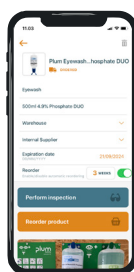

Reorder feature
Enable automatic reordering and set the number of weeks.

When you reorder the product this icon [icon] ORDERED will appear.

After reordering you will be notified by email according to your settings.

Inspection log
Use the inspection function to ensure that all products are within expiration. Simply push "Perform inspection" and your inspections are logged below the product.

Report product usage
If you've had an accident and used one of our products, we'd love to hear from you. Simply use the "report accident" button located under the product itself. This will notify us that the product has been used and we will send you a short form to fill in. This information is helpful to us as it allows us to see if the product has met the expectations.
