

SAFETY AT WORK

Plum QuickFix - your quick help for minor accidents

Keep plasters within easy reach and save time. Put on the plaster - and back to work

Quick and hygienic help with minor injuries
Stop wasting time on minor injuries. Grab a plaster, put it on, and go back to work. Plum QuickFix provides quick and hygienic access to plasters whenever they are needed.

Lots of minor accidents happen every day at work where a plaster is all that is needed. Choose the right plaster for your work situation. A suitable solution is available whether you need plasters for common work situations, for workplaces with a lot of humidity or for work within the food sector.

PLUM QUICKFIX IS A UNIQUE SOLUTION

- Easy access to plasters and wound and eyewash ampoules
- Each plaster is ready for use with one pull
- Apply with one hand
- Quick and hygienic access
- Compact solutions that take up little space
- Available for fixed placement or to take with you
- Hygienically, individually wrapped plasters

plum Safety

Flexible system for all types of work

Plum QuickFix provides a structured approach to first aid of minor injuries

PLUM QUICKFIX DISPENSER
The classic green dispenser contains two refills of Plum QuickFix plasters and/or Plum Wound and Eyewash 0.9% Sodium Chloride QuickRinse ampoules. The green cap protects the content of the dispenser from dust and dirt from the workplace. It is designed with an inside shelf for smaller objects and it can be secured with lock and key.

The dispenser can be used in any location with risk of injuries and scratches. The dispenser is designed for mounting on any stationary workplace.

Dimensions: h: 135 x w: 230 x d: 32 mm

Plum QuickFix Uno, white

Plum QuickFix Uno, transparent

Plum QuickFix Solo®, transparent

PLUM QUICKFIX UNO AND PLUM QUICKFIX SOLO® DISPENSERS
For workplaces that are not challenged with dust and dirt, we have developed the Plum QuickFix Uno and Plum QuickFix Solo® plaster dispensers. They are small and modern dispensers in a unique design that combines workplace safety with modern style.

Plum QuickFix Uno:
Dimensions: h: 85 x w: 130 x d: 35 mm

Plum QuickFix Solo® :
Dimensions: h: 80 x w: 130 x d: 27 mm

PLUM QUICKFIX TO GO
A practical solution for keeping plasters close at hand when you are on the go. Plum QuickFix To Go comes in a compact and durable packaging that is easy to store in a glove compartment, first aid kit or toolbox.

The front of the pack opens for easy access to the plasters and can be closed again after use, helping keep the remaining plasters securely stored and protected.

Dimensions: h: 122 x w: 110 x d: 20 mm

Plum QuickRinse for smaller accidents

Plum Wound and Eyewash 0.9% Sodium Chloride QuickRinse is a sterile first aid wound and eye irrigation.

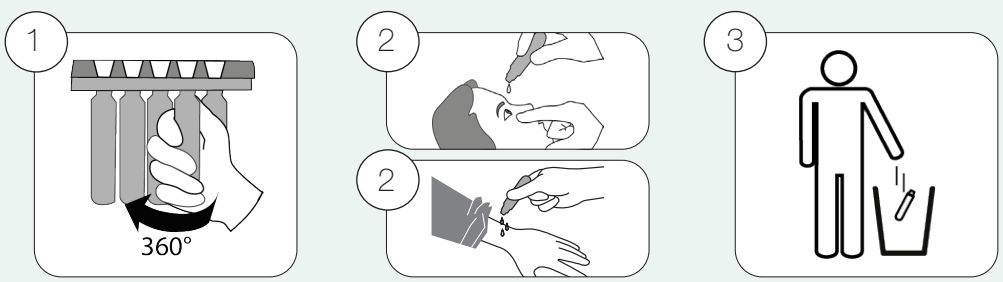

The product can be used for washing away:

- Dust
- Dirt
- Foreign bodies

Plum Wound and Eyewash 0.9% Sodium Chloride QuickRinse ampoules are designed specifically for rinsing away small foreign particles that can be removed with just a small amount of fluid. A key advantage of these ampoules is their convenience – you only need to open a small, single-use container rather than a larger bottle.

How to use the ampoules

Plum Wound and Eyewash 0.9% Sodium Chloride QuickRinse is easy to use. Follow these simple steps:

Twist the ampoule

Rinse the eye or wound

Throw away the empty ampoule

Choose your Plum QuickFix plaster dispenser to meet your specific needs

Lots of minor accidents happen every day at work where a plaster is all that is needed
